

CANDY CORN SHELF SITTERS

Assembled View

CUTTING: Cover an appropriate size area of wood with Transfer Paper (#CARB). Lay the pattern over the transfer paper and transfer each pieces cut lines onto the appropriate thickness of wood by simply tracing with a pen, pencil or stylus (#STY). Cut out Bodies and Hat from 1-1/2" thick wood. Cut out Boots from 1/2" thick plywood. Cut out Brim from 5/32" thick plywood* (#FPLY). Cut six 6" long pieces of Jute. Drill all holes as noted. Fill voids and defects in wood using wood filler. Sand wood filler (#WF8) and all surfaces to desired smoothness.

PAINTING: Use Delta brand (or equal quality) acrylic craft paint to paint the different areas as noted or colors of your choice.

ASSEMBLY: (See ASSEMBLY DIAGRAM.) Glue (#GLUETB3) Axle Pegs* (#AXLE1) into holes in Body. Center and glue Brim between Hat and Body. Bend Wire and glue into holes in Body, wrap wire around Dowel. Put a knot in the center of each piece of jute for the knees. Glue one end of jute into Body and the other end into Boot.

FINISHING: For maximum protection coat each piece of your project with at least two coats of our durable project sealer (#POLYQT). Place each Sitter near the edge of a shelf so Boots hang over the edge.
